

# In-flight POS Solution

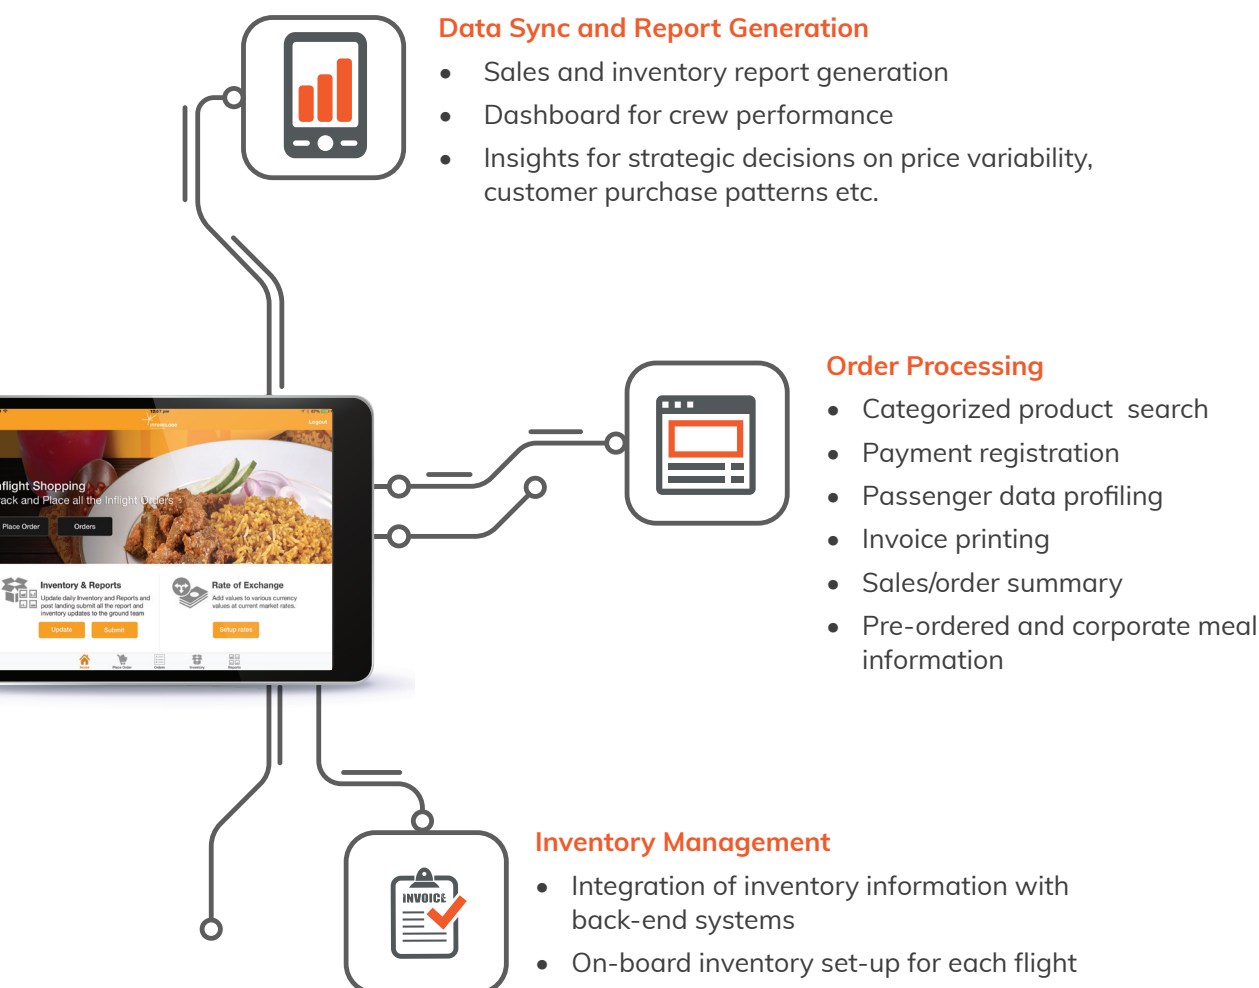

Efficient & Seamless  
Automation of In-flight Retail

With airlines developing seamless passenger connectivity services from on-ground to in-the-air engagement options, the in-flight sale of food and beverages becomes a key aspect of the cabin experience.

# IGT's In-flight POS

IGT's In-flight POS is a one stop automated solution for managing all on-board F&B, merchandise and duty-free sales. The solution automates the process of inventory management enabling quicker order processing and provides crew with real-time inventory and passenger updates.

## Key Benefits

- Inventory set-up in just few taps with pre-defined product list and quantity templates
- Invoice printing of purchased goods, options for home delivery for passenger convenience
- Dashboard reporting for easy visualization of data and strategic insights like customer purchasing patterns and popular product categories
- Integration support with any back-end system and support to connect with sale of other ancillary services

# Why IGT?

- Around 20 years of travel domain led solution development experience, enabling end-to-end solution delivery
- 100% focus on travel domain, providing services to Airlines, Travel Management Companies, Online Travel Agencies, Travel Technology Companies, Hotels, Railways, Airports, Cruises, Car Rental and Logistics.
- Global presence with over 30 locations spanning North America, Europe, IMEA and APAC
- IGT has developed solution accelerators built on a robust platform and having the flexibility to be changed as per the client's business need
