Accessibility Testing Services

Testing solutions & expertise for
WCAG 2.0 and section 508 guidelines

Accessibility Testing Services

In today's digitally transformed world, companies have their products and offerings online for the convenience of the consumers. However, if the readily available information is not accessible and usable by even a small percentage of consumers, it results in an opportunity lost to grow and retain the customer base. To provide an enhanced customer experience by integrating disparate technologies and user-friendly interfaces, it is important that the web content complies with statutory regulations and W3C guidelines.

IGT Solutions continuously strives towards following the industry changes and develop services & solutions to make the customer systems compliant. IGT Testing Center of Excellence (CoE) brings in its expertise through Applications Accessibility Assessment (AAA) platform to ensure applications are compliant with industry-wide accessibility best practices & guidelines like of WCAG 2.0 and Section 508 guidelines.

Why IGT Solutions?

- Committed to simplify complex customer interactions while delivering a seamless experience, IGT provides integrated BPM, Technology and Digital Services & Solutions for clients across industries for over 20 years.
- Maintaining the highest standards of quality with ISO 27001:2013, CMMi Level 5, COPC® v6.0, and I SAE-3402 Compliant certified processes
